

FUSION BLENDS

Extend your design possibilities

Any way you stack it, the Fusion Collection is all about creating a blended look on the wall with a mix of existing colours and textures from our Clay Brick Collections. We have worked with leading architects and designers to come up with an introductory Fusion Collection of six creative blends.

However, we can work with you to create your own custom blends. Then we will selectively stack and ship the pallets with the bricks already mixed according to the blend percentage formula, ready for the bricklayer.

Download the product info sheet [here](#) for more info about Shaw Brick's Fusion Blend options or stop by a [Shaw Retail Centre](#) or independent dealer near you.
