

K-BLOCK

A larger retaining wall block that's big on value

The larger, six-square-foot K-Block has benefits staked in your favour for retaining wall projects on a grander scale. It is the best and most-innovative retaining wall block available in precast concrete. K-Block delivers fully-engineered landscape block technology that greatly reduces installation time and labour costs. And it does this with unmatched safety, durability and aesthetics.

Landscape block state-of-the-art? We go one better, this is landscape block state-of-the-block! These popular retaining wall blocks are manufactured locally by Shaw Brick.

A mix of big retaining wall block sizes and shapes

K-Block comes in a variety of shapes in both six-square-foot and three-square-foot size configurations, some with a false split finish, all with the irregular look of natural stone. This retaining wall block system includes corner units, top units and various lengths of steps. It is available in two attractive natural colours: Granite Blend and Earth Blend.
