

RAIN DRAIN

The practical solution to your drainage needs. It's an all-purpose, ready-to-install drain for the professional and the do-it-yourself landscaper. Rain Drain is an easy-to-use, versatile product, engineered to solve an array of drainage problems around the house while blending with the natural beauty of your landscape.

Rain Drain can be used anywhere that water needs to be diverted - downspouts, driveways, patios, garage floors, etc. The Rain Drain unit accepts 2", 3", and 4" pipe.
