

ROMAN STACKSTONE

All the benefits of StackStone with a more weathered look

This [RisiStone](#) product is the weathered version of the StackStone system and has all the same positive attributes, including the tapered design, self-aligning structure and durability.

Roman StackStone is manufactured through a specialized process that rounds off the edges and corners, and gouges the face of the landscape blocks. This gives patio walls, garden walls, tree wells and other landscape elements a worn cobble appearance that looks like real stone, not concrete.

These popular landscape blocks are available in four pleasing colours: Chamois Blend, Granite Blend, Red Blend and Mocha Blend. For more information visit risistone.com.

Get a little help from the pros

Whether you are installing these landscape blocks yourself or using a qualified contractor, we recommend you visit your local [Shaw Retail Centre](#) or one of our [independent dealers](#) for helpful hints and project assistance.

This product may not be available at all locations, please check with your local Shaw Brick.
