

WEATHERED WALLSTONE

Weathered texture and rugged edges in a patio wall stone

This wall stone product, new last year, was a big hit for its simple design and versatility. The weathered texture and rugged edges bring a feeling of warmth and old cottage charm.

Whatever you can dream up, you can create with this line of patio wall stones: beautiful and durable benches, decorative columns, grilling areas, flowerbeds, fireplaces, and more. For the Weathered WallStone project, installation instructions visit our [Resources](#) page.

One size, three great natural colours

The landscape blocks in the Weathered WallStone series are available in one size (12x8x4") and three nature-inspired colours: Natural Charcoal, Chamois Charcoal and Mocha Charcoal.

Whether you are installing the patio walls yourself or using a qualified contractor, we recommend you visit your local [Shaw Retail Centre](#) or one of our [independent dealers](#) for helpful hints and project assistance.
