

WINDSORSTONE & CASTLESTONE

Tumbled and dimpled old-style paving stones

The tumbled and dimpled surface textures of WindsorStone and CastleStone Pavers convey an antique, countryside charm in any urban environment.

WindsorStone consists of three versatile shapes that fit together to form attractive, modular patterns: Large Rectangle, Square, and Small Rectangle. CastleStone are larger square paving stones that can be integrated with WindsorStone to create striking and durable outdoor living spaces with interesting random patterns.

Extra thick paving stones for high traffic areas

Although these interlocking pavers could be used for any project, their extra thickness makes them a perfect choice for high traffic areas. These premium quality concrete pavers are distinctive and durable, with the added bonus of outlasting other landscaping alternatives, which will greatly enhance the character and value of your property.

Whether you are installing them yourself or using a qualified contractor, we recommend you visit your local [Shaw Retail Centre](#) or one of our [independent dealers](#) for helpful hints and project assistance.

This product may not be available at all locations, please check with your local Shaw Brick.
